- Proficient in Microsoft tools like PowerPoint, Word, Excel, Power BI and Google Workspace productivity tools.
- Soft Skills: Human relations & Communication, critical thinking, problem solving and bookkeeping, project planning, data analysis & accountability and management

TECHNICAL SKILLS

- Languages: Python, JavaScript, C, C++, Assembly, HTML/CSS
- Frameworks & Runtimes: React.js, Node.js, Express.js
- Tools: Git, GitHub, Vite, Google Sheets API
- Productivity: Microsoft Office (PowerPoint, Word, Excel, Power BI), Google Workspace

PROJECTS

Devpost: [Karo Egbeurie](#) || GitHub: [kdruid](#) || LinkedIn: [Oghenekaro \(Karo\) Egbeurie](#) || Website: [My Website](#)
Portfolio Website & Backend | Full-Stack Developer | Individual project

07/2025-Present

- Built a React single-page application with client-side routing, deployed on Vercel.
- Developed a Node.js/Express REST API backend, deployed separately on Render, to handle form submissions and third-party integrations.
- Integrated the Google Sheets API using service-account authentication to log and organize visitor data securely.
- Implemented environment-variable-based credential management and version control practices to keep secrets out of source control.

University of Alberta Programming Competition (UAPC) | Programmer | University of Alberta competition

03/2026

- Competed in a coding competition with 2 other individuals within the top division.
- Delegated specific problems to everyone to allow us to tackle the questions faster.
- Collaborated with the team to create efficient and optimized code for the problems.

Hacksters | Front End developer | Hackathon group

10/2025-02/2026

- Founded and organized a team of 4 to participate in Hacked 2026.
- Utilized MediaPipe for posture and eye tracking features.
- Created an automated interview bot (Unemployed No Longer) to help individuals to get help for future interviews.

Controls and embedded systems coder | Hardware engineering | Robomasters

08/2025-12/2025

- Learning to implement the basics of utilizing the STM32 series to allow efficient communication between 4-5 devices

Phone Repair | Apprentice | Independent learning

07/2025

- Utilized the knowledge gained to repair phones.
- Ensured safe handling of the phones of clients.

Mechatronics Showdown | Hardware engineering | University of Alberta competition

03/2025

- Understood the basics of Arduinos and system wiring to create a robot capable of automotive balancing.

JOB EXPERIENCE
Assistant crew leader | Rise Landscaping | Edmonton, AB

06/2025 – 08/2025

- Worked effectively in a team to complete projects on schedule.
- Demonstrated strong problem-solving skills in changing environments.
- Managed and prioritized tasks across multiple job sites with high attention to detail and quality standards.

CLUBS

Vice President of Externals- Computer Engineering Club

03/2026-Present

Canadian Mental Health Association

01/2026-04/2026

Junior Executive of Events Coordination and Clubroom Coordinator - Electrical Engineering

08/2025-04/2026

ESS Funding coordinator

01/2025-04/2025

AWARDS & CERTIFICATIONS

App development introduction, 2026
AI Python for Beginners, 2026
Excel Financing Statement Model, 2026
App developer intro, 2026
Event Organizer, 2026
Soldering Work certificate, 2026
WHMIS 2015, 2026
Project network - Coursera, 2025
HTML5 certificate – Codedex, 2025
Industrial Machinery Certificate, 2025
Class 7 GDL - AB, 2024
